

Planning a Research Report

My report will be about: _____

Here are questions I want to answer in my report:

--

Research the answers to your questions. Write the information on note cards. Did you add or change any questions as you did your research? Write any new or different questions here:

--

Now write the main topics for your outline. Think about the best order for your main topics.

I.
II.
III.
IV.
V.

Finding and Documenting Sources

Taking notes

- Use the database that was created during Science (Internet)
- Use any other book sources that may help you (*Guinness Book of World Records*, etc.)

As you read your research, write useful information on note cards. (Get these from your teacher.)

Using note cards

Write down important details and quotations, along with the page numbers where this information can be found.
